"Absolutely amazing job from start to finish!! Cleaned out my garage, organized it making it easy for me to decide what to keep and not, he took what I decided to trash to dump. Painted walls and shelves to look brand new. Filled all the cracks in floor and along walls to make it last forever, and then added the floor of my dreams to match my car ♥️♥️ My garage went from the biggest disaster in my house... to my favorite room in the house!!"
